

Your Supplier of

MACKAY
INDUSTRIAL
RUBBER TECHNOLOGY

We can provide optimum solutions through part design, development of specialist compounds and final manufacture. A total solution from concept to delivery.

Mackay's knowledge and experience in rubber engineering puts us at the forefront in supplying technical solutions to the broad industrial market. Mackay's products are used in industries including Marine, Rail, Mining, Construction, Power Generation and General industries to isolate and protect equipment from vibration and wear with the ability to absorb impact and provide flexibility to structures and equipment.

Mackay strives to maintain a comprehensive range of ex-stock standard parts which are available through the Heatleys network providing quick, off-the-shelf solutions for many applications.
